# CONTENTS

1. Surface and solid state chemistry of zeolites

WILFRED J. MORTIER and ROBERT A. SCHOONHEYDT 1

2. Rare earth–transition metal permanent magnet materials

W. E. WALLACE 127

3. Evaluation of the kinetics and mechanisms of hydriding reactions

MOSHE H. MINTZ and J. BLOCH 163

4. Energy conversion and storage using insertion materials

G. BETZ and H. TRIBUTSCH 195
